

DID YOU KNOW THAT WE ALSO HAVE SOLUTIONS FOR:

YOUR BARRIERS

LZR®-H100

ACTIVATION AND SAFETY SENSOR FOR ALL VEHICLES

- **Adaptable detection** field size
- Removes any risk of impact by **meeting EN12453 Type E standard**
- No force limitation solution is required anymore

EN 12453

EVOLOOP

COMING SOON

REPLACE UP TO THREE INDUCTION LOOPS WITH ONE SENSOR

- Virtual loop induction without the need for floor excavation
- Customizable opening tailored through a mobile application

YOUR INDUSTRIAL DOORS

OPENING - PRESENCE - ADDITIONAL SAFETY

- **Save cost** : no more contact between the doors and objects/vehicles
- **Save energy** : the door opens right on time, and it closes safely to maintain the temperature
- **Save time** : fast and easy installation thanks to the mobile app

LZR®-WIDESCAN

OPENING

- **Save energy**: unidirectional motion for optimum door closing cycle, promoting energy savings
- **Detection filtering**: pedestrian and parallel traffic rejection
- Plug & play, adjustments via remote control programming

FALCON

OPENING - PRESENCE

- 9 unique infrared patterns capable of highly flexible presence detection
- **Detection filtering**: pedestrian and parallel traffic rejection
- Plug & play, adjustments via remote control programming

CONDOR

WHO WE ARE

BEA Sensors is a leading manufacturer of sensing solutions for automatic doors systems. We open and secure your installations all over the world.

SENSORS FOR AUTOMATIC DOORS IN HEALTHCARE ENVIRONMENTS

The challenges we address

Touchless activation to open your doors

Energy savings by reducing unwanted detections

Ensuring safety on your doors by meeting standards

HOW TO OPTIMIZE OPENING OF YOUR AUTOMATIC DOORS?

AUTOMATIC OPENING

EAGLE ARTEK

AUTOMATIC SWING DOOR SENSOR

- Slim and discreet profile for seamless installation
- **Energy saving** by reducing opening only when necessary

INTENTIONAL OPENING

MAGIC SWITCH
CHROMA

CUSTOMIZABLE TOUCHLESS DOOR OPENER

- **Open with a hand gesture** no direct contact
- **Various pictograms/LED colors** for seamless integration
- **Antimicrobial surface** limits germ propagation
- **Toilet mode** (green/red led)

LZR®-FLATSCAN SL

TOUCHLESS LASER DOOR OPENER

- **Precise intentional movements** detection thanks to laser technology
- Mounts on ceiling or wall for **easy cleaning**
- **Reduces bacterial transmission** – no physical touch
- **Flexible Settings** available for 2 virtual push buttons, **ideal for hygiene-critical environments**

LZR®-FLATSCAN 3D

OPENING AND SAFETY SENSOR FOR SWING DOORS

- **Intentional hygienic door opening** without contact
- Activated by **virtual buttons or detection field**

“Opening the door when necessary while reducing unwanted detection is our daily challenge.”

HOW TO INCREASE SAFETY OF AUTOMATIC DOORS?

FOR YOUR SWING DOORS

SWING DOOR LASER SAFETY SENSOR

- Ensures swing door safety with **extra finger trap protection**
- **Universally compatible** with all sizes and kinds of swing doors even **with door handles**
- **Discreet design** available in black/silver/white

LZR®-FLATSCAN SW

THE ULTIMATE SWING DOOR SAFETY SOLUTION

Revolutionize your swing door safety with the full capabilities of a flatscan enhanced with innovative new features:

- **Safeguards the entire door** covering the hinge, edge, and leaf areas
- **Anticipates any risk** by ensuring a scan of the entire passage zone between the leaves
- **Improved energy efficiency** by closing your door sooner with confidence

LZR®-FLATSCAN 3D

FOR YOUR SLIDING DOORS

OPENING AND SAFETY SENSOR FOR SLIDING DOOR

- **Reliable infrared safety** protecting users from contact with the doors
- **Rejection of cross-traffic** to reduce unwanted openings
- IXIO has **widely been specified across the globe** for years

IXIO DT1 ARTEK

THE ULTIMATE LASER SLIDING DOOR SAFETY SOLUTION

Orascan is taking safety to the next level

- **A single sensor** covering the entire door width and side screen for uncompromised safety
- Indoor/outdoor suitability and **fits all sizes of sliding doors**
- **Opening and safety sensor** + virtual push buttons on-demand
- **Improves energy saving** by optimized cross-traffic rejection

ORASCAN

“Our mission is to offer the highest safety level.”
